

## Carpet is Artistry for the Floor

The concept that "carpet is artistry for the floor" is a principle that we try to make a reality in each project we take on. We strive to make the carpet a stunning visual entity that people gaze upon and admire as soon as they walk into the room.

Sutton Carpet Ltd. opened its doors 38 years ago with an express intent of providing the most extensive array of commercial, residential and custom carpets at a price level to satisfy every client. By dealing with all mills directly and maintaining a low overhead we are able to pass on significant savings to our clientele. All of our employees at Sutton Carpet Ltd. are knowledgeable and eager to accommodate any needs the client might have.

### CARPET & RUG SALES

The range the client can select can be as small as a one room carpet install to a large scale commercial installation. The diverse mills provide a carpet selection for everyone. Some carpets can be custom colored to easily coordinate with existing designs.

### INSTALLATION

Our installation division offers superlative work. We have received a virtually zero percent complaint rate over the years. As a result all of our installations come with a 3 year warranty on all labor performed. We excel in all types of installations from one room to premier high end custom installations, to the more complex carpet installs including custom steps, wall & furniture and custom, unique applications.

### CARPET & UPHOLSTERY CLEANING

Our cleaning division will clean and maintain wall to wall broadloom carpet, fine antique hand made area rugs and machine made rugs as well. We clean all types of upholstery, fabric and leather, fabric walls, and custom carpet installations.

### REPAIR & HAND RESTORATION

Our Restoration Department restores all types of antique handmade rugs. We employ artisans who laboriously bring back to life even the most damaged rugs. Many of these rugs go onto auction at Christies and Sothebys.

All of our cleaning technicians are certified and receive on going training. All of our equipment is of the highest quality and our detergents are environmentally friendly.

Less complex repairs can be done on any rug or carpet such as hand or machine binding, surging, blocking, fringing and fabrication to suit client's specifications.
